

**“Intelligent transport systems – towards connected, efficient and safe mobility solutions”  
Panel discussion – 05.09.2016, at 6 p.m. – Saxony Liaison Office Brussels**

Dear Sir or Madam,

The importance of Intelligent transport systems (ITS) goes far beyond the context of increasing urbanization, demographic change and digitalization.

What added value do ITS offer?

What challenges is Europe facing developing and implementing ITS solutions?

What actions do we have to take for not lagging behind in international competition?

**The Deputy Prime Minister and State Minister for Economic Affairs, Labour and  
Transport  
of the Free State of Saxony**

**Mr. Martin Dulig**

cordially invites you to a panel discussion with

Ismail Ertug  
Member of European Parliament

Claire Depré  
Head of Unit C.3 (Intelligent transport systems), DG MOVE European Commission

Hermann Meyer  
CEO European Road Transport Telematics Implementation Coordination Organization (ERTICO)

Jens Redmer  
Director Business Development, Google EMEA

Dr. Stefan Brosig  
Functional Manager, Volkswagen AG

Dr. Rocco Deutschmann  
CEO TraceTronic GmbH

**“Intelligent transport systems – towards connected, efficient and safe mobility  
solutions”**

**Monday, 5<sup>th</sup> September 2016, 6 p.m.,**

at the Saxony Liaison Office Brussels, Avenue d’Auderghem 67, B-1040 Brussels.

After the panel discussion you are invited to a walking dinner.

Conference languages are English and German. Simultaneous interpretation will be provided.

For details please see the programme attached.

Please register with your complete contact details by **30<sup>th</sup> August 2016**:

ITS are already a cross-sector and cross-technology driver for the economy. A large number of companies and institutes are active at the interface of different fields of technology.

Furthermore Saxony published in 2016 an ["Atlas of Competence in Intelligent Transport Systems in Saxony"](#).
